Email Correspondence: Project Scope and Timeline

Email Summary:

This email trail covers discussions on project scope, timelines, and key deliverables. The correspondence also outlines the roles and responsibilities of the team members involved.

1. Initial Scope Definition

The initial scope involved setting up a CRM system that integrates with the existing e-commerce platform and automates customer communications.

Example:

In an email dated September 15, 2023, John Doe proposed integrating customer feedback tools with the CRM to enhance customer insights.

2. Feedback and Adjustments from Stakeholders

Several stakeholders, including the sales and marketing teams, provided feedback that led to adjustments in the project scope, such as adding advanced analytics features.

3. Final Scope and Timelines

The finalized scope includes CRM setup, integration, and training for the teams. The timeline for completion is set for Q1 2024.

4. Key Milestones and Deliverables

Milestones include the completion of API integration (Q4 2023), system testing (Q1 2024), and full deployment (end of Q1 2024).

5. Communication Plan for Project Progress

Weekly progress meetings will be held, and a bi-weekly progress report will be shared with all stakeholders.
